Mr. M. J. Veneroso
Department CL-726
Materials Handling & Packaging
Engineering
Douglas Aircraft Company
3855 Lakewood Boulevard
Long Beach, CA 90846

Dear Mr. Veneroso:

As per your request of April 25, 1977, I am enclosing material safety data sheets on our Acryloid B-72 which should answer your questions concerning the shipping of this material. We are not sure which of our Acryloid B-72 resins (solid or toluene solution grade) you purchased as we show no record of shipments to Douglas Aircraft over the last two years. Therefore, information on both are enclosed.

If you have any further questions, please let me know.

Very truly yours,

Dan Davis, Product Supervisor
Polymers, Resins and Monomers
